A full-page background image featuring two men from the chest up, wearing blue quilted work jackets with hoods. The man on the left has a beard and is looking slightly to the right. The man on the right has a full beard and is looking directly at the camera. The lighting is dramatic, with strong highlights on their faces and jackets against a dark background. A yellow diagonal shape is on the left, and a blue diagonal shape is on the right.

**INTRO**

**PROTECTION AGAINST THE COLD**

***Performance in every detail***

It takes a strong, hardworking fabric to survive a tough, hard day's work. The kind of work that requires bending, lifting, twisting and facing tough conditions. Garments made in Refrigue are durable and always ready to work overtime under some of the toughest workplace conditions.

## MORE THAN 45 YEARS AT YOUR SERVICE

Refrigue Confeccões Para o Frio Lda. delivers technical and professional clothing and certified personal protective clothing for demanding professionals. We design PPE for cold protection, subzero temperatures and high visibility.

The catalogue is divided in categories in order to go through our offer, according to every need. As you leaf through, you will discover the proper equipment for each adequate temperature to protect you from adverse conditions from head to toe.

In the end, you'll find all the instructions for the good durability of each equipment, as well as how to measure the ideal size for each employee or user. You'll also find every contact of our distributors. If you have any questions, do not hesitate to contact us.

## ABOUT US

# 01

Founded in 1972, we began our simple goal to keep people warm and safe. Over generations, we've built a strong reputation as an expert manufacturer of high performance cold protection apparel. Over more than 45 years, we've refined our manufacturing experience and technical expertise to produce technical apparel for professional use where safety, comfort and cold protection are major concerns.

Our founder, Mrs. Georgina Reis, driven and hard working sets as a true woman entrepreneur. The driving force behind the company, nurturing ideas, stimulating growth and everlasting professional connections through Europe, Africa and the Middle East. A lifetime dedication to the company and a true passion for the textile industry.

Most of our Personal Protective Equipment and any technical clothing comply with current European regulations, their directives and standards. Thermal insulation protects the user in both positive and negative temperatures up to - 62 ° C.

# TRADITION & MODERN TIMES

The factory's  
construction in  
1986

Pioneer in manufacturing certified PPE's in Portugal, Refrigue is proud to ensure that every component is made in Europe.

Our outer fabric is produced from high tenacity polyamide, manufactured in Europe exclusively for our company. It is breathable and water repellent. The filling is made of polyester with different weights for every cold protection: 50 gr, 140 gr, 200 gr, 220 gr. The inside lining is made of polyester.

Internationally recognized for its materials durability and quality, we can only be proud and express our utmost gratitude for our customers and distributors loyalty.

**REFRIGUE®**

For more than 45 years, we've put our know-how and expertise at all professionals disposal.

# OUR FACILITIES

Our integrated and optimized solutions of workwear and personal protective equipment are marketed under our trademark Refrigue® certified according to European Union standard norms.

1. You'll find our facilities on a manufacturing area of 1500 m<sup>2</sup>.
2. An integrated and secure manufacturing house.
3. A team by your side.
4. More than 30 dedicated employees at your service.

## POSITIVE COLD

For comfort and durability, discover our models designed to protect users from cool environments. Ideally lightweight and breathable, they provide a lighter protection for temperatures from - 5° to 10° C.

# SUBZERO TEMPERATURE

Working in a cold environment causes additional challenges for professionals. Refrigue offers technical and standardised clothing that allows you to work safely while feeling real comfort. Our collection offers a selection of protective equipment (PPE) for optimal protection from the effects of negative temperatures, work outdoors or in extreme cold conditions: for example chilled or frozen storage areas, cold chambers, to mention a few.

## HIGH VISIBILITY

High visibility equipment maintains a great importance protecting employees. It ensures worker's visibility and safety, day and night, when exposed to hazardous conditions, such as exposure to vehicles or machines, and in environments of low visibility. It offers reflective properties. The reflective tape helps the eye to capture the light in low-light contexts. Garments also ensure strength, comfort and breathability properties.

GLOVES NINJA ICE®

**EU STANDARDS**  
**EN 511:2006**  
**EN 388**  
EC CERTIFICATE GB07/73371  
ISSUED BY SGS, NOTIFIED ORGANISM N° 0120

- PPE TECHNICAL FEATURES**
- | HPT COATING (HYDROREPELLENT TECHNOLOGY) COATING ON PALM
  - | COATED FINGERTIPS
  - | SPONGY, SOFT, DURABLE, FLEXIBLE COATING THAT REPELS LIQUIDS TO PROVIDE A FIRM WET OR DRY GRIP
  - | ENCAPSULATED AIR MOLECULES IN OUTSIDE SHELL PROVIDE A CUSHIONED EFFECT TO MINIMIZE IMPACT
  - | **ACTIFRESH** TREATMENT TO KILL BACTERIA AND PROMOTE FRESHNESS
  - | COATING REMAINS SOFT AND FLEXIBLE IN TEMPERATURES AS LOW AS -50° C
  - | TWO LAYERS LINER / DUAL SHELL CONSTRUCTION
  - | OPEN BACK VENTILATED

**USES** GENERAL HANDLING IN COLD ENVIRONMENTS. COLD STORAGE. COMMERCIAL FISHING. CONSTRUCTION. AGRICULTURE. OUTDOOR WINTER USE.

- PPE COMPOSITION**
- | OUTER FABRIC: 100% POLYAMIDE 60 GR/M²
  - | COATING: HPT™ (HYDROREPELLENT TECHNOLOGY) COATING ON PALM
  - | INNER LAYER: BRUSHED FOR BETTER COMFORT AND HEAT

Nº 2777

EN 420: 2003 GENERAL REQUIREMENTS FOR GLOVES

EN 388: 2016 AGAINST MECHANICAL RISKS

EN 511: 2006 AGAINST THE COLD

### PPE TECHNICAL FEATURES

- | SEAMLESS KNITTED LINER
- | IMPROVES USER COMFORT (NO ROUGHNESS, HEATING POINTS)
- | REDUCES HAND FATIGUE
- | IMPROVES DEXTERITY FOR EASY HANDLING
- | POLYAMIDE FIBRES OFFER HIGH TOUGHNESS
- | PROVIDES GOOD RESISTANCE AGAINST ABRASION
- | RESISTANT AGAINST MOLD AND FUNGUS
- | LOW WATER ABSORBENT
- | INNER LAYER IN WAR FIBRE (ACRYLIC)
- | PROVIDES COMFORT AND GOOD INSULATION AGAINST COLD
- | ELASTICATED KNITTED WRIST FOR WAM AND SNUF FIT
- | EASY DONNING FOR MAXIMUM COMFORT
- | SPECIAL SOFT, TEXTURED NATURAL PROTECTIVE COATING
- | PROVIDES GOOD WET GRIP BY CHANNELING AWAY EXCESS FLUID FROM THE SURFACE
- | ISO9001 CERTIFICATION FOR A REGULAR AND GOOD QUALITY OF PRODUCTS
- | ELASTICATED KNITTED WRIST

**USES** REFRIGERATED WAREHOUSING AND STORAGE. DRIVER. PUBLIC WORKS. CONSTRUCTION. DRIVER. TRANSPORTATION. CARGO HANDLING. MAINTENANCE OF GREEN AREAS. FISHING

### PPE COMPOSITION

- | OUTER FABRIC: 100% POLYAMIDE
- | LINING: 100% WARM ACRYLIC TERRY
- | COATING: SPECIAL FOAM NPT LATEX COATING
- | CUFFS: ELASTIC KNIT

| COLOUR: BLACK  
| SIZES: 9-11

## GLOVES NEO5040®

### EU STANDARDS

**EN 388**

**EN 374-1**

**EN 374-5**

**EN 511**

**EN 407**

EC CERTIFICATE, ISSUED BY SGS FIMKO OY, NOTIFIED BODY  
Nº 0598

### PPE TECHNICAL FEATURES

- | MANUFACTURED FROM CHLOROPRENE RUBBER LATEX
- | EMBOSSED DIAMON PATTERN ON PALM FOR BETTER GRIP
- | ADDED LINING GIVES A MORE COMFORTABLE AND SWEAT ABSORPTION
- | CAN PROVIDE INSULATION AND LIGHT PROTECTION AGAINST THERMAL RISK
- | HAS BEEN TESTED IN ACCORDANCE TO COLD CONTACT TEST
- | SUPERIOR DEXTERITY AND RESISTANCE AGAINST ANIMAL FATS AND OIL
- | CAN BE USED FOR HANDLING SOLVENTS IN OIL REFINERIES
- | CHEMICALLY TREATED TO ENHANCE PERFORMANCE AND FOR EXTENDED USAGE LIFE

**USES** REFINING. INDUSTRY. MANURE SPREADING. CHEMISTRY. INDUSTRIAL MAINTENANCE.

### PPE COMPOSITION

- | OUTER FABRIC: CHLOROPRENE RUBBER LATEX
- | LINING: 100% ACRYLIC BLACK TERRY
- | LENGTH: 380 MM \*
- | THICKNESS: 0.68 MM (+/- 0.03 MM)

| COLOUR: BLACK  
| SIZES: 8-10

## GLOVES THR713®

### EU STANDARDS

**EN511**

EC CERTIFICATE ISSUED BY SATRA, NOTIFIED ORGANISM  
Nº 2777

### PPE TECHNICAL FEATURES

- | SEAMLESS KNITTING, NO ROUGHNESS
- | KNITTING WITH NATURAL ELASTICITY ALLOWING THE GLOVE TO FIT PERFECTLY AROUND THE HAND
- | FIT EITHER HANDS
- | SUITABLE FOR ACTIVITIES REQUIRING GOOD DEXTERITY IN COLD ENVIRONMENTS
- | CAN BE WORN AS INSULATING LINER UNDER OTHER UNSUPPORTED GLOVE
- | DEVELOPED TO KEEP THE USER DRY AND COMFORTABLE
- | REDUCES HAND FATIGUE
- | ELASTICATED KNITTED WRIST FOR A SNUG FIT
- | ISO9001 SYSTEM IN PRODUCTION
- | 13 GAUGE

**USES** FISHERY. COLD STORAGE. CONSTRUCTION. PUBLIC WORKS. TRANSPORTATION. MAINTENANCE OF GREEN AREAS. SPORTS.

### PPE COMPOSITION

- | FABRIC: SYNTHETIC FIBRES COOLMAX®
- | CUFFS: ELASTIC SYNTHETIC FIBRES

| COLOUR: BLUE  
| SIZE: ONE SIZE

| COLOUR: BLACK  
| SIZES: 8-11

## SAFETY FOOTWEAR

Start off on the right foot, stand firm with our collection of boots with materials and pattern on the sole that gives a perfect grip. Safety footwear shoes increase grip on the floor, reduce slipping on wet and unsafe floors, keep our feet warm or protect us from shocks or crushes. To avoid serious damage, always use safety footwear according to the importance of protection (classification S1 to S5) and according to standards required.

### BOOTS GR40

#### EU STANDARDS

EC CERTIFICATE  
EN ISO20345:2012 EPI—SAFETY FOOTWEAR ISSUED BY  
INTERLEK, NOTIFIED BODY N° 2575

#### PPE TECHNICAL FEATURES

- | LIGHTWEIGHT AND FLEXIBLE PU BOOT
- | EXCELLENT THERMAL INSULATION
- | ACRYLIC LINING
- | DUAL DENSITY PU POLYURETHANE SOLE
- | WATERPROOF LEATHER ROD
- | MANUFACTURED WITH STEEL TOECAP
- | PERFORATION RESISTANT
- | ENERGY ABSORBING HEEL
- | SLIP-RESISTANT AND ANTISTATIC SOLE

**USES** INDUSTRY. LOGISTIC. TRANSPORT. MAINTENANCE  
GREEN AREAS. CRAFTWORK. CONSTRUCTION. PUBLIC  
WORKS

| COLOUR: BLACK  
| SIZES: 39-47

## COLD STORAGE

Our thermal cover are efficient, quick to set up, easy to use and compact for storage. Ideal for industrial, commercial and food-processing industry. Their thermal insulation reduces temperature variations but also hot and cold peaks. Discover additional protection for transport of heat sensitive, perishable and pharmaceutical products, reducing the risks of temperature variation during weak segments of logistics.

## THERMAL PALLET COVER

### PPE TECHNICAL FEATURES

- | INSULATED PALLET COVERS
- | CONTROLS TEMPERATURES VARIATIONS
- | KEEPS THE COLD INSIDE AND THE WARM OUTSIDE
- | OR THE WARM INSIDE AND THE COLD OUTSIDE
- | PLASTIC POCKET FOR IDENTIFICATION
- | RESISTANT, WASHABLE, LIGHTWEIGHT, BREATHABLE
- | PROTECT PALLET SHIPMENTS
- | AGAINST EXTREME HEAT AND COLD TEMPERATURES
- | CAN BE QUICKLY AND EASILY APPLIED TO SHIPMENTS
- | PROVIDES HIGH PERFORMANCE TEMPERATURE CONTROL
- | PROTECTING FOOD OR FROZEN FOOD AGAINST DAMAGING TEMPERATURE EXCURSIONS DURING TRANSIT.
- | BEST OPTION TO PROTECT FROZEN PRODUCTS AND FOOD IN NON REFRIGERATED AREAS OR TO KEEP FOOD WARM IN COLD ENVIRONMENTS
- | COST EFFECTIVE SOLUTION COMPARED TO REFRIGERATED TRUCKS
- | STRONG AND FLEXIBLE MATERIAL TO RESIST PUNCTURED AND RIGOROUS HANDLING DURING TRANSIT.
- | BLOCK RADIATION, CONVECTION, CONDUCTION AND ODOUR TRANSFER
- | CAN BE USED AS BLANKETS OR CURTAINS FOR TRUCKS
- | SUSTAINABLE ALTERNATIVE WITH ATTENTION TO DURABILITY AND QUALITY
- | MADE ACCORDING TO CUSTOMER'S SPECIFICATIONS

### PPE COMPOSITION

- | OUTER FABRIC: 100% POLYAMIDE 6.6 185 GR/M<sup>2</sup>
- | LINING: 100% POLYESTER 62 GR/M<sup>2</sup>

# OUR GARMENTS, YOUR SAFETY

OUR MISSION IS TO EQUIP YOU TO BE SAFE AT WORK AND BE YOUR BEST.  
GET THE JOB DONE. STAY WARM AND COMFORTABLE.

## SERVICES

Refrigue can customize and adjust any garment according to every customer's needs. Some customization and adjustments may generate additional costs and minimal quantities required. To add reflective tapes, refer to the specific chapter (p. 24).

### EMBROIDERY

Profile yourself and your business with an exclusive and professional identification with embroidered company logo or name. It is applied directly on the garment or on a badge sewn afterwards. Embroidery allows an excellent rendering. Note that it requires an upstream program creation specific to each drawing.

### SPECIAL SIZES

We offer a large range of sizes for every garment, from XXS to XXL, precisely from 34 to 74. Nonetheless, we can produce specific sizes to answer your needs, and protect every worker. Regarding special sizes, consult p. 36.

### REPAIRS

Refrigue has launched a service of clothing repairs for our clients, to offer durability and quality. If you own a garment that need fixing, do not hesitate to contact us.

### CUSTOMIZATION

Every garment has specific uses, our designs are well known for their efficiency as professional equipment. Although, they may not respond to every need you may have, we offer garment customization for every specific need you shall have in your company.

### COLOURS

# SIZE GUIDE

Always check your size before ordering. Take your measurements in cm, using a tape to place on your body without tightening. For any special measure, please check the measurements required on the model below, and send us the detailed measurements.

SIZES	XS	S	M	L	XL	XXL	XXXL	TOL/CM
CHEST	77-82	87-92	97-102	107-112	117-122	127-132	137-142	2±
WAIST	66	72-76	82-86	92-96	102-107	112-117	125-137	2±
SIZE	34-36	38-40	42-44	46-50	52-60	62-68	70-74	

## GUIDE TO MEASURE SPECIAL SIZES

## WASHING & CARE INSTRUCTIONS

Every garment has specific washing instructions. These are important to follow. The correct wash cycle, care and storage of your workwear is important for its durability, function and long term comfort. The right care is also imperative in order to guarantee specific garment's technical functions.

**Hand wash or soft cycle** to avoid damaging our garment's materials and functions. It is also important that zips, buttons and Velcro straps are closed when the garment is washed. This reduces wear and tear and lengthens garment's life.

**Do not bleach** Check that the detergent is intended for the garment wash temperatures. Do not use laundry detergent containing bleach. Follow washing instructions in the manual. Be aware that fabric softeners can damage certain fabrics and their function, the breathability of water-repellent membranes can be impaired.

**Do not tumble dry** We don't recommend tumble drying as a solution. It's best to hang up or dry flat.

**Do not dry clean** Dry cleaning will damage your garment.

**Do not iron** Ironing will damage your garment.

**Safety footwear** In order to fulfil the safety stated characteristics, it is important that shoes are always used and tied correctly. Also pay attention, if your shoes are subject to heavy wear— check that soles, seams and uppers are intact. Clean your shoes regularly with a brush, remove any spots with a damp cloth and use shoe cream on the leather uppers. Never clean shoes with substances such as petrol, acids or solvents. Shoes should be stored in a dry, well-ventilated space. Never dry shoes next to a heat source such as a stove, radiator or drying cabinet. Let them dry and well ventilate at room temperature.

**Protective gloves** All gloves have a marking showing the correct certification and performance level. A damaged or badly fitting glove provides poorer protection. So you should always check your gloves before use. Take care when working with moving machine parts, because they may get caught and cause damage to your hands. Store in a dry and cool place. Please consult your gloves' marking for the correct washing instructions, or clean with a dry brush.
